To Whom It May Concern:

In a highly competitive business like ours, cost-effective advertising is a must. We requested a temporary LED display to help us evaluate whether or not LED advertising would increase our sales. Within just a few days of having the LED unit on site, we could already see a twenty to thirty percent increase in the sales of the items advertised on the sign. We placed an order for a sign of our own and waited eagerly for it to arrive.

Electronic Signs acquired our permit, addressed our questions and issues to prepare for the installation, procured the right display for needs and ensured everything went smoothly from our order through to final installation.

We couldn't be more pleased with our LED message display and offer our strongest recommendation for Electronic Signs.

Re: New sign

Chris: The new sign is up and it looks great. We're having fun discovering all of the different ways to display text and graphics. Everyone is amazed that we can change our message instantly without ever leaving the building. The remote hardware / software works perfectly. Thanks for helping us through this whole process. You guys were a great help in selecting which model would work for us. We also appreciate your offer to come all the way up here to New York to install the sign for us.

We talked to many sign companies when we made this purchase, and your company was the most helpful. Your pricing was competitive and when we had questions during installation, you were right there on the phone to help us. We will definitely use you again for our electronic sign needs.

Thanks,

Donald Urmston

Brian Giunta
Electronic Signs
PO Box 160
Claymont, DE 19703

Dear Brian,

We recently used the Roadstar and the Solar electronic signs, at two of our retail stores for one of our biggest sales of the year.

The store managers informed me that these signs were great for increasing foot traffic and they noticed an increase of potential customers. As a result, the store managers requested the electronic signs for our upcoming New Year's Sale. We look forward to working with Electronic Signs in the future!

Warm Regards,

Angie Blank
Marketing Manger

To whom it may concern,

Here at Chapman Nissan we have been renting LED displays from ElectronicSigns.com and seeing tremendous results.

Items that have been advertised on the display have seen a significant increase in sales, by taking advantage of our everyday drive by traffic.

Due to those results, we have worked a weekly rental into our monthly advertising budget for the 3rd and 4th Quarters of 2006, as well as, all of 2007.

Because of their excellent customer service and dedication, we would certainly recommend renting an LED display from ElectronicSigns.com to help promote your business.

Thank You
