

Bring excitement and high visibility to your organization's communications

Outdoor LED displays are an affordable, state-of-the-art way to communicate church programs and ministry news to the local community. Add an Electronic LED display to facility monuments, roadside pylons, parking lots, and walkways between buildings to create an exciting, unified communication network throughout your religious facilities or campus.

Communicate important parish messages at a moment's notice. Standard computer software is included to turn your PC into a convenient programming tool. Optional wireless devices enable easy installation, with no complicated wiring. Optional telephone modems allow you to communicate with displays in remote locations.

Advances in outdoor LED technology provide you with a virtually maintenance-free product. Super-bright, solid-state LEDs last for over 100,000 hours of continuous operation, consume less than 1/40 the power and outlast comparable-sized incandescent message centers.

- Advertise parish activity schedules of the day/week/month
- Promote religious spirit and special events
- Welcome new parish members
- Display community involvement and events

Communicate with visual impact:

- Light color and motion demand attention and produce results
- Recognize students, staff, and faculty at targeted locations
- Wired or wireless networks expand network capabilities throughout your facilities

Choosing the right LED display

Simply stated, LED signs are the most cost efficient and effective advertising available today.

Slower Traffic / Close-up Viewing

The 17mm series is perfect for advertising along any local city street. 5-Inch to 22-inch letters, and high display resolution make it ideal for monument applications, lower pylon, and slower city traffic volumes. Brilliant red or amber LEDs with 256-shades/grayscale really attract attention.
